

# ADVOCACY OF HUMAN RIGHTS 2005

PRIVATE & CONFIDENTIAL

**Petition:**

Few persons of Same Sex Orientation and Same Sex Preference choose to live openly or admit their sexuality, in Trinidad & Tobago. From an early age, condemnation by religion and an intolerant society force them to suppress their feelings. The typical emotions of self hate and failure are prevalent. Individuals learn to isolate themselves from society and live double lives. This petition serves as an official record of those who agree to the following:

1. The equality of Human Rights policies in Trinidad and Tobago, should equally apply to persons of Same Sex Orientation and Same Sex Preference
2. Anti gay legislature in Trinidad & Tobago, serves as an act of discrimination and stigmatization which poses a threat to effective national health and social HIV/AIDS initiatives
3. Legislature revokes the existing Sodomy / Buggery Laws in Trinidad & Tobago

**Event: Red Sunday. Date: 3<sup>rd</sup> April 2005**
